PRESENTATION / REPORTS

5. Oral and/or Written report on an enrollment update, as of August 21, 2019, for each individual campus, including Athens, Kazen, West Campus High School (9th Grade) and the Alternative School.

1. How many incoming 9th grade Freshman enrolled at South San High School reside in the 78242 zip code?

I have included the Board President in this email as I tend to request an exception to the time allotted so my questions can be answered thoroughly. Please have all the relevant data prepared and available. In short Dr. Flores, if you think I'm going to ask a specific question on the enrollment for WCHS I probably will. So please be prepared to provide detailed answers regarding enrollment and the registration process as it is my intent to get satisfactory answers from you. Please acknowledge receipt of this email. Thank you.

Approximately 195 new incoming Freshman reside in zip code 78242. We are still in the beginning stages of reconciling our enrollment so the number may change.
