

**TRANSPORTATION BOARD REPORT FOR
OCTOBER 2025**

SUBMITTED BY: WAYNE BULL Calf

Board report for October 2025

Hi all, this is my October report. So, for the shop they had 35 bus and 37 vehicle work orders that were completed. There were 2 bus rescues that were done. All of our snow equipment is ready for our cold winter days. We had 2 buses in the last 8 months that needed the rear end replaced. I did make contacts with our bus manufacturer and asked why this is happening, so they're looking into the concern.

As for the office, almost all route mileages are done so we can get our bus reimbursements. We also completed all route evacuations with all students.

So, for the trip personal we had 97 trips. These trips are sports trips, field trips, college trips and Speech & Debate. Some of these trips went from Monday through Sunday. With all these trips most drivers been driving steady from 6:00 am to 5:00 pm and after hours. Thank you, Bus Drivers!!

Disciplinary department, there were 35 disciplinary write ups and 2 removals

This is my October report thanks for reading God bless.

Francis Wayne Bull Calf

Transportation Director
