

School Priority Month Resolution

Acknowledgement of Engagement

Whereas the system of Texas Public Education is founded on the principle of necessity for a prosperous society and for individual opportunity; and

Whereas the success of our local public schools is dependent on the axiom of community engagement and a shared responsibility; and

Whereas the collective efforts by parents, educators, and the community foster the opportunities for student success; and

Whereas these accomplishments represent the fabric of local education, therefore;

Be it resolved that as a biennial event, the Aledo Independent School District hereby acknowledges the value of engagement by inviting into our local schools a representation of elected officials from all levels of government during the month of October, 2016; and

Be it resolved that this engagement period known as 'School Priority Month' provides a pathway for honor, respect, and communication between our elected officials and our local public schools; and

Be it resolved that beneficial experiences are shaped as our public officials observe and interact with students and educators alike; and

Be it resolved that these engagements create new partnerships with our public officials and foster long-term meaningful relationships for the benefit of our future – our children.

We hereby adopt this **School Priority Month Resolution** as an acknowledgement of engagement on this 18th day in the month of July, during the year of 2016 by the Aledo Independent School District Board of Trustees.
