H.3 – Update Policy 104 and 209 – Policy 104 (School District Mission Statement) has not been updated since 2008. In August 2024, the board reviewed a strategic plan developed with the support of the Big River Group, which incorporated feedback from surveys and input sessions with our stakeholders. That plan included an updated mission statement.

The attached draft includes the current MSBA model for Policy 104 along with the revised mission statement.

In addition, the Board Norms document is presented as a supplement to Policy 209 for review.
