

STUDENT IMMUNIZATION AND LIFE THREATENING HEALTH CONDITIONS

Immunizations

In order to safeguard the school community from the spread of certain communicable diseases and in recognition that prevention is a means of combating the spread of disease, the board requires a student to present evidence of having been immunized against diseases as required by [28A.210 RCW](#) and the Washington State Board of Health [246-105 WAC](#).

~~of his/her having been immunized against the following diseases as recommended by the State Board of Health: diphtheria, pertussis (whooping cough), tetanus, poliomyelitis, measles, rubella, mumps, hepatitis B, varicella (chickenpox) for children under thirteen years of age and haemophilus influenzae type B disease. A student satisfies the measles requirement upon a physician's verification that the student has had measles (rubeola).~~

Exemptions from Immunization

The district will allow for exemptions from immunization requirements only as allowed for by [RCW 28A.210.090](#) and [WAC 246-105-050](#).

Meningococcal Disease, Human Papilloma Virus Disease and Vaccine Information Distribution

At the beginning of every school year, the district will provide parents/guardians of sixth through twelfth grade students, information provided by the Washington State Department of Health about meningococcal disease, human papilloma virus (HPV) disease and their vaccines.

The information will include the causes and symptoms of meningococcal disease, human papilloma virus, how the diseases are spread, the places where parents/guardians may obtain additional information and vaccinations for their children, and current recommendations from the United States Centers for Disease Control Prevention regarding the vaccines.
