

## Babb Board Report

Since we have had to quarantine for the last three weeks in Babb we continue to provide packet work for our students. Packets have been placed in plastic bags and brought to homes. The packets are placed by the front door and notified. For those that opted not to have this delivered in this manner, packets were mailed out. We currently have 32 students enrolled at this time. We may have a few more add once we are back into the building.

For those parents that currently have access to the internet we have given them access to the Zearn math program. This allows students to watch videos and receive instruction for all of their lessons.

Our PD has focused on Indian Education for All as well as Eureka math.

Thanks for JoAnn and Suzanne for putting together the Google classroom presentation for the board meeting.

Billie Jo Juneau

Babb School Principal
