UNITED INDEPENDENT SCHOOL DISTRICT RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET TO THE STATEMENT OF NET ASSETS AUGUST 31,2012

	Total Fund Balances - Governmental Funds	\$ 96,065,467
1	Capital assets used in governmental activities are not financial resources and therefore are not reported in governmental funds. At the beginning of the year, the cost of these assets was \$536,798,077 and the accumulated depreciation was \$198,493,194. In addition, long-term liabilities, including bonds payable, Public Property Finance Contractual Obligations (PPFCO's), and leases totaled \$288,290,995 and other long-term liabilities of \$1,177,426 are not due and payable in the current period, and, therefore, are not reported as liabilities in the funds. The net effect of including the beginning balances for capital assets (net of depreciation) and long-term debt in the governmental activities is to increase (decrease) net assets.	48,836,462
2	Current year capital outlays of \$22,464,690 (\$18,082,220 from facilities acquisition and construction, with the remaining \$4,382,470 coming from the various other functions) and long-term debt principal payments of \$19,919,545, amotization of premiums in the amount of \$894,014, refunded bonds of \$46,480,000 and reductions of \$3,436,450 of other liabilities are expenditures in the fund financial statements, but they should be shown as increases in capital assets and reductions in long-term debt in the government-wide financial statements. The retirement of capital assets of \$778,411, the accounting loss on the refunding og \$2,727,432 and the issuance of Refunding Bonds in the amount of \$45,890,000, the premium on the refunding bonds of \$4,111,142, the accretion on Capital Appreciation Bonds \$2,069,402, a new lease of \$32,941 and the accumulation of other benefits of \$3,128,324 in the financial statements should be as decreases in capital assets and increases in long-term debt in the government-wide financial statements. The net effect of including the 2012 capital outlays and debt principal payments is to increase (decrease) net assets.	34,457,044
3	The 2012 depreciation expense of \$17,747,990 net of adjustments/disposals of \$724,334 increases accumulated depreciation. The net effect of the current year's depreciation is to (decrease) net assets.	(17,023,656)
4	Various other reclassifications and eliminations are necessary to convert from the modified accrual basis of accounting to accrual basis of accounting. These include recognizing deferred revenue as revenue, eliminating interfund transactions, reclassifying tehproceeds of bond sales as an increase in bonds payable, and recognizing the liabilities associated with maturing long-term debt and interest. The net effect of these reclassifications and recognitions is to increase (decrease) net assets.	3,590,880

The net effect of including the 2012 capital outlays and debt principal payments is to increase (decrease) net assets. Depreciation is not recognized as an expense in governmental funds since it does not require the use of current financial resources. The net effect of the current year's depreciation is to (decrease) net assets.
