Item Name: LAMAR CISD STUDENT DISCIPLINE UPDATE

Item Summary: All students deserve a safe and supportive school that is conducive to learning and establishing a positive and welcoming environment. Administrators face the challenging task of balancing the creation of a supportive environment that focuses on learning and high expectations with that of maintaining a safe environment free of threats, violence, and drugs. When reviewing disciplinary data, administrators can identify individual student needs as well as behavioral trends and introduce positive behavioral interventions that are specific to student and campus needs. Disciplinary data analysis also provides administrators feedback on the utilization of exclusionary practices and determine whether they are use the practice appropriately or if there is disproportionality among students and within student groups.
