#### Background Information

The purpose of SiteLogIQ:

*"We make Buildings Better.*

*We don't want to overcomplicate things. We're driven by our purpose to make buildings better.*

*We work in schools, hospitals, apartments, offices, factories, warehouses, and shopping centers to deliver energy efficiency and facility solutions that make a difference for the people in our local communities who occupy them."*

At the December 18, 2023 Workshop, Andrew Fields gave a presentation to the board on what services they can provide Red Wind School District.

At the January 16, 2024 Workshop the board reviewed and determined the top five priorities of improvement.

SiteLogIQ will be sharing information about the facility conditions of The Jefferson Building and we will share key takeaways from the enrollment study. As Red Wing School District continues to plan for its future, we hope the data being presented can support the planning and execution of their strategic plan.

#### Recommendation

No action is needed.
