

August 2013 Board Report
Ozona High School

- 1) Schedules have been completed and working on tweaking schedule changes.
- 2) Professional development at Camp Eagle was a big success in that we had a lot of fun and the team building has us headed in the right direction.
- 3) We are fully staffed at OHS
- 4) We held a senior parent night on Aug. 12 in the cafeteria. We informed them what it takes for their child to graduate, college information and other graduation requirements and activities.
- 5) We held our first “Fish Camp” to orientate the incoming Freshman to OHS. We divided them into 4 groups and ran a short four period classes where they were introduced to homecoming activities to discipline issues. We had a fish fry for the students and their parents and after the meal we let the students go and informed the parents most of the things their child was told in the orientation. We felt like it was a great success for our first “Fish Camp”. There were approximately 30 students and their parents there.
- 6) 212 students were scheduled into classes. We are anticipating that number to change as we know there are students leaving our district as well as coming into our district. It will be interesting to see if we end up above or below that number.
