Re: Board Policy EIF Local

Due to changes in graduation requirements, board policy EIF Local needs to be revised.

Please note the following additions have been made to the policy to reflect the new technology proficiency assessment expectations of the district:

- To graduate, a student must complete the courses required by the District in addition to the courses mandated by the state.
- Additionally, students who entered grade 9 after the 2009–2010 school year shall be required to demonstrate technology proficiency as designated by the District. The list of courses required for each of the programs may be found in the District's course catalog.

Please note the following additions have been made to the policy to reflect the update to New Tech's graduation requirements as discussed in the May board meeting:

- Career experience; and
- Senior capstone experience

For an updated version of EIF Local, please see the attached policy.
