Old Business:

Site council reviewed minutes from March and unanimously approved them. Science night was a great success. Applegate had the caterpillar bus from Pacifica and also Science Works from Ashland. We had great attendance and everyone seemed to be actively engaged.

New Business:

Site council went through current Applegate Handbook. Went through looking at the wording.

All three site council members that were present went through each page, discussing how to keep the wording simple yet effective. There are two handbooks needed, elementary and middle school level. Site Council did see several items that had unnecessary repetition and would like to see those items removed. Site council will have a master one copy .
