SUPERINTENDENT'S REPORT**

MARCH 3, 2025

# TEA SCHOOL FACILITIES STANDARDS FOR CONSTRUCTION

On November 1, 2021, the TEA adopted a new set of School Facilities Standards for Construction under Title 19 of the Texas Administrative Code.

This establishes standards for design and construction, including space and square foot requirements for all capital improvement projects funded on or after November 1, 2021.

The TEA requires the Board of Trustees' approval of the district's Ed Specs.

Ed Specs are a written educational program that guides the design process of newly proposed school facilities or major space renovations.

# TEA SCHOOL FACILITIES STANDARDS FOR CONSTRUCTION

**Ed Specs includes information on instructional programs and configuration of support spaces for the facility.**

**They outline educational concepts, and detailed facility needs while considering district values and current and future educational delivery.**

**They provide consistency among similar project types from campus to campus, reduce inequities and simplify the planning process of future projects.**

**Ed Specs are necessary for Goose Creek CISD to guide the creation of engaging and effective learning environments that are necessary to support the district's instructional program.**
