

BOE Report
April 14, 2020

Continuity of Learning: There are a variety of challenges we are facing now that virtual teaching/learning has become our sole avenue to work with students. I'm pleased to report that our teaching staff, paraprofessionals, administrative assistant, custodians, and Taher Staff have all been very flexible and willing to work with one another to help reach all of our students during this time.

Knowing that many of our families struggle with limited access to the internet, our teachers have been focused on identifying ways that we can continue to reach every student in our district.

Here are a few of the things we have been implementing:

- Eliminating hard due dates
- Prioritizing learning targets
- Providing guidance for students to help them self-pace and monitor progress
- Recording lessons so they can be accessed at times more convenient for students
- Phone conferencing
- Emailed instructions that don't include attachments
- Promoting Enrichment activities in each subject area
- Creating a consistent and organized way for students to find information and access lessons

2020-2021 Registration and Course Selection: Mrs. Huseby has put together a digital version of our registration/class selection forms. These have gone out to all of our families including our incoming 5th grade students. Hard copies will be mailed to the families that need a print version.
