

Board of Education

Presentation

TITLE: Weapon Detection System

DATE: February 26, 2024

RESPONSIBLE ADMINISTRATOR: Martin Mahan
Deputy Superintendent

BACKGROUND/CONSIDERATIONS:

During the December 18, 2023 board meeting a presentation was given to discuss the possible next steps in adding weapon detection systems to the district buildings. The presentation provided a five-year plan to assess the possible implementation of the current weapon detection systems that are available.

The Weapons Detection System Research Committee recommended that the district partner with a Weapons Detection Camera System in year one, of the five-year proposal. Additional yearly recommendations will be researched and assessed with an annual board presentation.

A Request for Purchase (RFP) was published and a selection committee selected Zeroeyes for the Weapon Detection Camera System partnership. The district will partner with Zeroeyes for an annual approximate cost of \$156,000.

RECOMMENDATION:

This is a presentation and no action is recommended.
