

North Slope Borough School District

Dear Board President Harcharek & Superintendent Harvey,

We appreciate the support that your school board provides through your membership in AASB. The work we have accomplished as an Association is only possible because of our members' commitment and contribution.

AASB was established by a small group of school board members in 1954 to support their boards and districts. Then, as is the case today, the membership and AASB Board of Directors set the direction and identified the Association's goals.

The Association has created a strong and unified voice on behalf of all of Alaska's youth. It has raised public awareness about students' needs and has elevated the effectiveness and credibility of school boards in their governance role. The membership is highly regarded as youth advocates by the legislature, the executive branch, the state's business community, and the general public.

AASB staff and the membership provide visible, credible representation before the Alaska Legislature and the U.S. Congress. AASB's credibility was instrumental in creating the Alaska Initiative for Community Engagement (ICE) and the Consortium for Digital Learning (CDL). Both of these have provided more than \$38.65 million to member districts over the past twenty years.

AASB staff provides direct services to every member district and school board across the state. **The enclosed Participation List shows the services and activities your Board has utilized recently.**

The value and benefits of membership in AASB are linked to that strong voice and advocacy.

Dues History and Structure

In 1988 when AASB developed its first long-range plan, our members were surveyed to tell us what kinds of services, programs, and representation they wanted from their Association. We then determined how much revenue would be required to support the organizational structure that could provide what they requested.

A committee consisting of School Board members from around the state developed the dues structure in 1991. It is designed on elements that recognize the diversity and sizes of districts and their budgets, level of service generally used by large and small districts, the benefit of statewide representation to all districts, and the desired balance of revenues from dues and other payments from services. The dues structure elements include a base fee computed using Average Daily Membership (ADM), with correspondence students weighted at 90%, the same amount used in the foundation

formula. The District Cost Factor (DCF) identified for each district in the Public-School Foundation program then adjusts this base fee. A second major component of the dues structure is assessing your district's general budget at .00011. These two, the base fee and the assessment, are combined to generate the amount in dues.

The goal in developing the AASB dues structure was to arrive at a fair and equitable method of assessing dues, one that would consider a district's ability to pay and the level of service generally used by districts of different sizes.

We are a diverse set of school districts, ranging from Pelican with about a dozen students to Anchorage with close to 45,000. That diversity and the economy of scale that go along with it require some method to create an equitable means to assess dues. The Dues Committee tied its method to similar criteria used in the foundation formula. The elasticity provided in the foundation is the District Cost Factor (DCF). The 1991 Dues Committee identified the DCF as one of the primary elements upon which the dues would be assessed. Since then, AASB has shared in the increases and declines of state support to schools. In 1996 AASB dues were reduced by 15% to address a decline in state funding. AASB has not proposed increasing the base fee for membership since that reduction.

Initially, the Board of Directors determined that a balance of funding sources should be divided between 50% dues and 50% fees. Over the last many years, this balance has changed dramatically. Dues income now makes up a significantly smaller portion of the revenue AASB receives. In actuality, AASB has significantly developed grant-based funding sources for important initiatives through the Alaska Initiative for Community Engagement (Alaska ICE). The balance of revenue to support the work of AASB for 2021 is now as follows: 7% is derived from dues, 81% from grants and major contracts, 13% from workshops and services, and finance revenue.

The mission of AASB is to advocate for children and youth by assisting school boards in providing quality public education, focused on student achievement, through effective local governance. Your dues are critical to contributing to the revenue necessary to achieve our mission by providing the foundation for our core services to School Boards.

The support of all school boards is essential to keeping AASB services available and affordable. Without your support, the Association's voice on behalf of school governance would not be as strong or as credible.

Your dues payment for the coming year is 22,188.78.

ELEMENTS OF AASB DUES STRUCTURE FYE 12/31/2020

A Dues Committee of school board members from around the state developed the dues structure in 1991 with technical assistance from the Southeast Regional Resource Center, in conjunction with AASB's Long-Range Plan. The objective in development of the AASB Dues structure was to arrive at a fair and equitable method of assessing dues that would take into account a district's ability to pay and the level of service normally used by districts of different sizes. Other issues considered by the committee in developing the dues structure included:

EQUITY – given the diversity of the sizes of districts in the state and their corresponding budgets, how could the dues structure address ability to pay without unduly burdening any member?

LEVEL OF SERVICE – larger districts might be able to meet more of their immediate needs through their staffing, while smaller districts must rely on the association to provide them with direct services they can't afford to staff for. On the other hand, AASB provides standard services and opportunities to all members through its publications and conferences that are needed equally by all member districts regardless of size.

STATEWIDE REPRESENTATION – AASB provides a statewide presence for all school boards through its representation before the Legislature, State Board, etc. All districts benefit from the presence regardless of size.

BALANCE OF DUES AND FEES – much of AASB's income is derived from entrepreneurial enterprises – direct services, conferences, contract work. This is done at a lower rate than outside providers can offer because dues underwrite it. Dues should not provide so much revenue that there is no incentive for AASB to earn more through services. On the other hand, AASB is limited in the amount of revenue it can generate through services because of the size of its staff and membership. There should be a balance between dues and fees for the AASB budget. Keeping those considerations in mind, the following elements were incorporated in the dues structure:

(1) District Size/Pupils in average daily membership (ADM)

District ADM	Base Fee - \$
100 or less	1,700
101 – 250	3,400
251 – 500	4,250
501 – 1,000	5,950
1,001 – 2,000	7,650
2,001 – 3,000	9,350
3,001 – 8,000	12,750
Over 8,000	17,000

- (2) Multiply the base fee by the District Cost Factor (formerly Area Cost Differential) identified for each district in the Public School Foundation program, AS 14.17.460.
- (3) Assess .00011 of each district's current year general fund budget. This ties AASB's revenues to the general financial condition of its members – if district revenues rise, AASB will receive a nominal increase; if district revenues fall, AASB shares in that hardship as well.
- (4) Combine (2) and (3) for total AASB dues. No district will pay less than \$2,000. The districts in the two largest ADM categories will incur a 1% increase annually.
