Background Information

A Calendar Planning Committee comprised of teachers, parents, students, directors, coordinators, and other district leaders is developing priority needs for the 2025-2026 academic calendar.

The committee will be seeking input and guidance from various stakeholders. Our goal is to develop an academic calendar that meets the needs of our students. Next month, sample calendars will be developed and published for families, staff, and our community to provide feedback. The results of that feedback will be shared at the March board meeting for the consideration of trustees.
