## INSTRUCTIONAL PROGRAM LIBRARY MEDIA CENTERS & CLASSROOM LIBRARIES

JANUARY 12, 2015

The Livonia Public Schools School District ~~has established~~ **establishes** library media centers to provide and promote the intellectual, cultural, social, and ethical development of students and to provide resources which extend and deepen the experiences encompassed in the curriculum. **Library Media Center materials are determined through a process based on the American Libraries Association (ALA) guidance for selection of books and other materials of learning which contribute to the growth of individual students. Selection for classroom libraries follows the same guidance criteria.**
