

# FINANCE & SUPPORT SERVICES MONTHLY BOARD REPORT

November, 2023

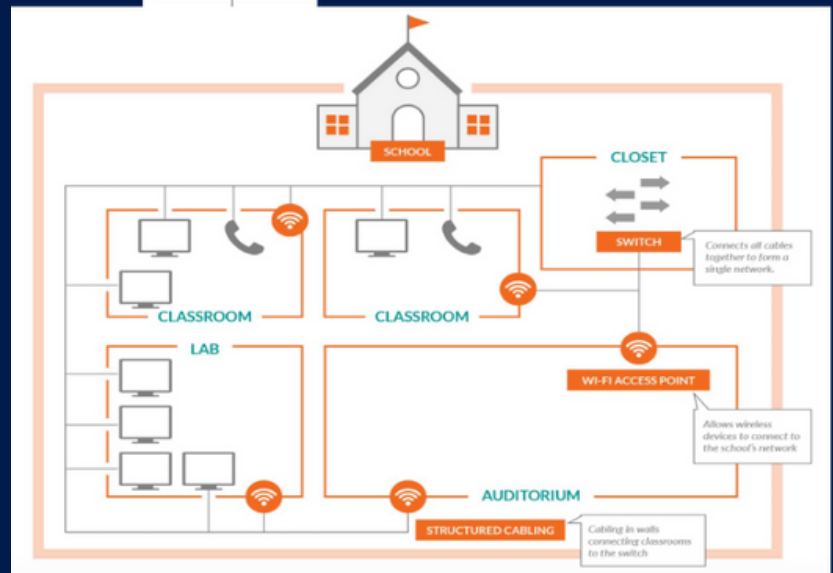

## Information Technology

### ✓ WIRELESS ACCESS AND SWITCH PROJECT

After two months of solid use, Paul Vos Benkowski, IT Specialist, reports that Unity now has a robust wireless network that allows our students and staff to access all their devices at blasting speed. Prior to the installation of 90 new access points and 17 switches, Paul received daily help desk calls from elementary and middle school staff for connection issues. Since completion of the wireless project, the IT department has had zero internet connection calls - that's a win!

Project was partially funded through the Federal Communications Commission **eRate** Program for Schools and Libraries.

## Food Service ALA CARTE WINDOW

The Ala Carte window is open during lunch for grades 7 - 12. With parental permission, students can choose from a variety of extra items. Reimbursable meals such as pre-packaged sandwiches and salads will be available soon.

Thank you to:  
**MILLTOWN COMMUNITY CLUB**  
for the generous \$250 donation  
to the Food Service Donation  
Account. Funds will be used for  
those in need!
