LNG Exports 2021 vs 2020

NI Hub Wholesale Electricity Prices

Electricity Blend & Extend

Term in Months	Start	End	kWh Volume	\$/kWh Price
30	Sep-21	Feb-24	4,945,287	\$0.0563

Term in Months	Past Price in \$/kWh	Current Offer in \$/kWh	Price Differential	Expected Term Volume (kWh)	Approximate Term Savings
30	0.0582	0.0563	0.0019	4,945,287	\$9,396.04

Brief refresher on blend & extend:

- Capitalize on an immediate cost reduction by unwinding your hedge and purchasing cheaper electricity
- Currently, you're hedged at \$0.0582/kWh through July 2022, we can lower your costs to \$0.0563/kWh starting with your September 2021 invoice
- This would provide an approximate \$9,400 cost reduction for the District

Pricing as of 7/13/21 and is subject to change with market movement until an agreement is executed.
