ACTION

BACKGROUND INFORMATION

Several Board and Community members have expressed concern about state of equipment in Community Accessible fitness Center. Most of this equipment is retired Grant machinery, but most concern is for condition of Treadmills, Steppers, etc.

I need some direction on the Board's desire to continue to support public access and use of this facility including repair and procurement of worn equipment.

We currently have no specific budgetary resources dedicated to this item. We generate no revenues from Fitness Center use other than refundable deposits to cover the cost of replacement RFID fobs for the entry system.

ADMINISTRATIVE RECOMMENDATION

As desired by Board.
