Maintenance Report 02.22.23

February has been a busy month, with many challenges. Sports travel has kept us on the move most the weekends, either driving to Coffman cove or Hollis and dropping off vans for teams to have transportation.

The school buses are down for awhile do to the DPF exhaust systems. While working on the buses and tracking down parts through Cummins of Anchorage, we found out that there is a recall for this era of Cummins. We have started filling with Cummins for warranty field work. In short, the DPF systems on the buses could be covered by Cummins. In the meantime, Southeast Island Schools has loaned us a bus for the Hollis bus run and bus #4 is being used for the Port St. Nick route.

Boiler #1 at the High school has a fuel pump that has gone out and we are waiting for parts. Other then that we are working on our monthly PM's issued by the state and doing our best to keep up with in house maintenance request.

If there are any questions regarding maintenance, please don't hesitate to ask.

Daniel Nelson
CCSD Maintenance Director
