October 2017 Board Report

The first six weeks of school is coming to a close and teachers are reflecting on the progress their students are making.

We have had a very active six-weeks for instruction. We have been able to have quality time with our scheduled classes with tutoring as needed.

The staff has worked very diligently on executing their lessons as planned.

The volleyball and football games have been well attended by parents and fans with our teams winning their share of victories. Our ultimate goal is for as many to participate as possible. Our numbers are good in volleyball, less in football with basketball next on the agenda.
