

STEM Lab Update

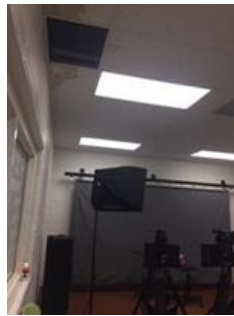

Rosa Park STEM Visit:

Rosa Park Administrator and STEM teacher explained usage of existing library area as STEM lab. Created a room for tapping broadcast.

District Program should purchase the following items:

- PADDING TO INSULATE WALLS FOR RECORDING

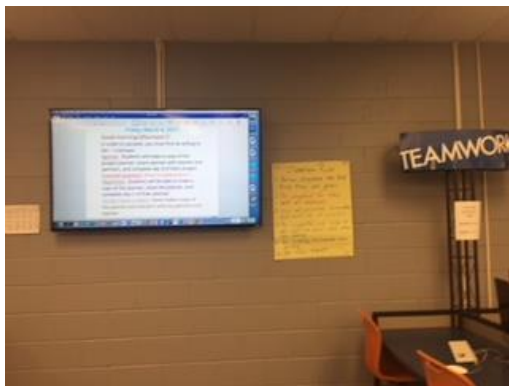

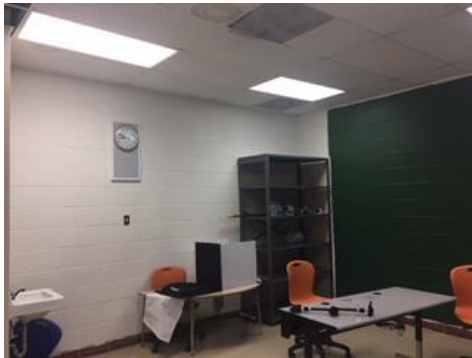

STEM Lab Update

STEM Lab used existing storage/office spaces to create additional green room for taping.

- Note tile concerns within area
- Existing sink not used in area

Brooks Lab was once used for Woodshop. Back room has large piece of equipment (Will it be used for production in the future? Existing vents not utilized within area slated for STEM LAB) Vents can be removed for aesthetics purpose for main room

Waiting to meet with Director of Teaching and Learning to receive update of overall plan. Unsure if carpet/tile will be included in purchase of program. Suggest carpet to be included within purchase.

- **Classroom to be painted by Maintenance Team**
- **Unsure of equipment currently used within computer lab. Where will it be moved. Usage of equipment should be scheduled prior to spring break.**
- **Classroom exit door inquire to be changed to a panic bar door. (Safety Precaution)**
