

**CAREER  
PREPARATION  
COURSES**

**Career preparation courses should span the entire school year, and classroom instruction must average one class period for each day for every school week. A student is expected to be enrolled the entire school year; however, a student may enter or exit the course when extenuating circumstances require such a change. The Superintendent (or designee) is authorized to approve or deny any request of a student to enter or exit a course because of extenuating circumstances.**
