

SUBJECT: Consideration and possible approval of the School Affiliation Agreement between Pasadena ISD and HCA Houston Healthcare Southeast.

BACKGROUND: HCA Houston Healthcare Southeast will be offering clinical rotations to health science students from all high school campuses. These clinical rotations provide an opportunity to participate in job shadowing experiences, as well as real-life experiences, through on-site instruction. This facility will permit students to engage in activities employees routinely perform during the regular course and scope of business. Students will rotate through various departments to experience a wide range of hospital procedures and patient care during the school year.

Instructors of health science courses will supervise the students participating in the on-site experiences. No fees will be charged to the district for the clinical rotations.

FINANCIAL IMPLICATIONS: None

RECOMMENDATION: We recommend approval of the School Affiliation Agreement between Pasadena ISD and HCA Houston Healthcare Southeast.
