Sc/SS Data History	Science	Social Studies
2012	67	45
2013	68	58
2014	70	72

In response to our student data:

1. All three of our math teachers with Mrs. Poindexter have joined the Teacher Quality Grant Program with Dr. Donna Gee through ASU. They will attend a two week summer seminar at ASU in July, three other math symposiums between May 2014 and February 2015, and have home campus visits through the grant in order to learn the new math TEKS and improve math instruction at OMS.
2. The grade level team leaders and I are attending the "Teaching with Poverty in Mind" Institute in San Antonio to better understand how to structure the learning environment in a Title 1 school. We used the Instructional Rounds principles of gathering student engagement data during the last few weeks of school to take with us to the conference.
