Directors Report

March 2019

Marketing students are using a new point of sale machine that accepts credit and debit cards. The students requested to be able to use cards to purchase items in the school store. Mrs. Brackett had students research various systems. They have purchased a "Square" point of sale system.

The building trades students have installed the windows. A subcontractor installed the garage door. The students are working on putting bat insulation in the ceiling while the electricians and HVAC contractors finish up with rough in work.
