

Minidoka County School District  
**Technology Dept Report**  
**May 16, 2016**

### **District WAN**

- PMT was our only bidder for the WAN. It will move us to 1Gig speeds at all our schools with a \$5000 one time cost. The monthly cost will be the same with a 3-year contract.

### **Labs/Testing**

- Testing is slowing down and several schools have finished.

### **Cell Phone Internal Signal**

- Verizon has finally approved us to install the internal signal. We are installing at Minico for \$8,750.

### **Minico Laptops**

- We are in the process of ordering laptops for Minico's 9<sup>th</sup> graders. The plan is to order the 9<sup>th</sup> grade laptops every year to reach the goal of one-to-one devices at Minico.
