Subject: House on 2036 Farrand dr.

Joseph A. Rizk

Writing in regard to the house on 2036 Farrand dr, First I would like to thank you for taking the garage down in 2019, but the house is still standing. we been patient it been empty for six years. The roof caving in the back. when the wind blows hard we get debris in our yard. We see animals going in and out of the house. People keep asking us what they are going to do about that house. IT very hard to keep our neighborhood up with that house next store.

Thank you
Daniel O'Kelly
