

Form at a Time

Modernize your student enrollment process with a lightweight, configurable online solution that meets all your registration needs right from within the PowerSchool SIS.

Cut Costs and Save Time

Free staff from excessive data entry, save families time spent completing forms, eliminate printing and mailing costs, and boost funding with accurate enrollment data.

Increase Student Safety

Keep staff informed and protect student data with a secure, online process that collects accurate, critical medical and contact information.

Improve Resource Management

With accurate enrollment numbers before school begins, you can staff appropriately for classrooms, student learning, and medical and transportation needs.

Make it Easier for Families

Remove barriers, promote equity, and give parents the convenience of enrolling students from the familiar PowerSchool SIS Parent Portal.

Ensure Secure, Accurate Enrollment Information

Directly tie enrollment form data fields to SIS fields for easy integration, and deliver documents to the appropriate PowerSchool SIS student record.

Boost Purchasing and Donations

By including the option to make online payments on required forms, families are more likely to engage with payment options.

Learn how Enrollment Express fits into our new Student Information Cloud. Provide everything a Technology team needs all in one place!
