

Region: West
Area: Cascades
Vehicle Count: 14
Market Type: Rural

Overall Ranking: #2 out of 419 total locations

Where are you Excelling?

PM Compliance

Your performance of 100.00% ranked #1 out of 419 total locations

Great job keeping up on your PM compliance! A compliant bus is less likely to need unscheduled major repairs.

Preventable Collisions / M miles

Your performance of 0.00 ranked #1 out of 175 total locations in your market type

Congratulations on managing road risk and keeping our employees, passengers and motoring public safe!

Preventable Injuries / 1,000 heads

Your performance of 0.00 ranked #1 out of 175 total locations in your market type

Congratulations on helping to lead safety and for achieving a low frequency of preventable injuries. Don't forget to give well deserved positive reinforcement to employees!

Top 3 Areas of Opportunity

GPS Health %

Your performance of 97.65% ranked #234 out of 419 total locations

Ensure all GPS units are properly functioning on vehicles. This is one of the keys to properly managing our operations. Complete and accurate data helps us better manage on-time performance, payroll and other key processes, and it will enable future technology, such as parent tracking applications. Please ensure that you are regularly reviewing Zonar to facilitate improvement.

FYI

Our buses are parked in a barn with a metal roof so our GPS is not able to reach the satellite until we pull out of the barn. This makes us appear to be late every day. If we parked outdoors we would likely be # 1 in the company. Michele
