

## PROPOSED REVISIONS

### Consistent Application for Graduating Class

The District shall apply the same class rank calculation method and rules for local graduation honors for all students in a graduating class, regardless of the school year in which a student first earned high school credit.

### Calculation

The District shall include in the calculation of class rank semester grades earned in high school credit courses taken at any grade level, unless excluded below.

The class rank calculation shall not include semester grades from a course that is retaken after a passing grade has been earned.

The calculation shall include failing grades. A subsequent passing grade for a failed course shall be recorded on a student's transcript but shall not be included in the calculation of class rank.

### Exclusions

The calculation of class rank shall exclude grades earned in summer school programs taken abroad; any local credit course, including any state credit course repeated for local credit; ~~any~~ distance learning course, unless the course is taken through the District's virtual or hybrid learning program; ~~including a correspondence course~~; or through credit by examination, with or without prior instruction, unless a passing grade is earned.

In addition, for a course that earns more than one credit, the District shall use the semester grades once in the calculation, in the same manner as for a single credit course.
