## **Art Literacy: Pinch Pots and Clipper Ships**

Presented by Community Arts Project

For the month of April your student/s learned how to make a traditional pinch pot with air dry clay. They learned about ceramics vessels throughout the ages and the different techniques used to build with clay. Techniques such as pinching, coiling, scoring, and using slip were among the things taught in this fun, hands on lesson.

For our final lesson for this school year, during the month of May, we will be making personalized clipper ship artworks. We will study a few famous American painters who chose to paint these beautiful ships and also learn about the names of the different parts of the ship. This multi-media project will use paint, torn paper, wood, rope, marker, and a creative mind. A selection of these student artworks will be on view at the Garibaldi Maritime Museum during the month of June. Please be on the lookout for a date so you can be sure to join us for opening night!
