March 27, 2017

Dear Board of Trustees and Dr. Cox,

As an elementary principal team we have discussed and evaluated the effectiveness of the building accountability report to the board. We would like to present an alternative approach to the reporting process for the 2017-2018 school year. Since we work closely as an elementary team, and have similar programs and goals, we would like to present a combined elementary accountability report in November of 2017. We would be able to present the same required information as this year without duplication of information. For the combined report we would like to recommend that we present in a work session which would give the board an opportunity to examine information more closely and ask questions in more depth with open conversation.

Our team would be happy to take one month during the school year and present individual school good news at an open board meeting.

Thank you for your willingness to consider our accountability report proposal.

Sincerely,

Laurie Copmann
