

## Approved Provider

**Strong Foundation Implementation (SFI) - K-5 - Amplify**: Education Service Center, Region 2. Vanessa Delgado will be our Amplify Specialist. SFI offers LEAs grants to help them implement instructional materials effectively and provide high-quality professional development for educators, coaches, and leaders. Option A is for LEAs implementing approved instructional materials in K–5 Reading Language Arts (RLA) during the 2024–25 school year with teachers, coaches, and administrators in Year 1 of implementation.

**Strong Foundation Planning (SFP) - K-12 - Math**: TNTP (The New Teacher Project) Ryan Presley is our representative. Approved providers will assist LEAs in creating a math framework, work with LEAs to complete deliverables and key milestones, deliver a collective learning series, and create a case study to document the process. LEAs typically complete the development of an instructional framework in 4-6 months, but timelines may be customized based on the LEA's local context and with approval from TEA. Additional training requirements will be required for approved providers throughout the duration of the grant by TEA
