*Students are counted as present during red status.*

Beginning in the 22/23 school year, the method for calculating the attendance was changed to provide more accurate data. Previously, middle and high school students were considered present if they only attended one class period. The new formulate takes into consideration how many periods students are attending. C&I continues to remind administrators and staff of the importance of submitting daily attendance for accurate reporting.

The symbols (↑ and ↓) next to the data indicates if there was an increase or decrease since the last monthly report, the percentage next to the symbol indicates the amount it has increased or decreased by since the last monthly report.
