

TRANSPORTATION BOARD REPORT FOR

APRIL 2026

SUBMITTED BY WAYNE BULLCALF

Hi all, this is my April board report.

So, as for the mechanic department, they have completed 37 workorders. They are requesting if the departments that have vehicles assigned out to them would please do by-weekly walk-arounds and turn them into the shop. When these do not happen, it gets expensive to fix them. We have the 2 new drivers ed vehicles that are already in use, we have a new handy cap bus, that's also being used. We're planning on running 2 special service buses in the near future.

As for the office, getting bills paid up before end of the year close out. The cost of everything from supplies, to parts have doubled and tripled, which really hit our budget hard. Preparing for upcoming board meeting that Transportation hosts. Getting summer help set up and summer training.

As for the trip department, they had 85 trips in all. They were asking in the near future, that, if possible, to purchase another team bus. It was very hard to keep up with the sports demands and we got lots of backlash from the parents. We have 2 ultra-coach team buses that are in good running condition, we also have 2 MCI buses, these 2 buses made 6 trips in the last 4 years and have been broke down.

So, for disciplinary department, we had 5 write up, with one removal. We need grades 1-5th grades to sign up to have buster bus do presentations at the grade levels, to help control behaviors on the buses.

This is my April board report thanks for reading God bless all.
