

April 2026 – Board Report

Spring is Here: The crew is busy with getting spring sports up and running now that weather is beginning to improve. We are reopening our outdoor athletic facilities, getting them cleaned out and water back on to them. The crew is working hard to get wind screens up on our tennis courts as well. Cleaning up our outdoor grounds areas and setting to prep our athletic fields. We are working with our fantastic community ed and recreational department on field prep and supporting their outdoors programs. It is nice to get our plows and salt spreaders put away and cleaned up for storage.

PLECC Space Update: After several years of a highly positive and collaborative partnership, Immanuel Bible Church has concluded its lease of space at Pierce Lake Elementary. Throughout their time in the building, the church community demonstrated exceptional stewardship, respect for the facility, and a strong spirit of cooperation with school staff.

This partnership provided mutual benefit, allowing the district to maximize use of its facilities while supporting a local organization committed to serving the broader community. Immanuel Bible Church consistently communicated effectively, maintained shared spaces responsibly, and contributed to a welcoming and respectful environment.

With the conclusion of this lease, the district now has the opportunity to bring several key spaces back online for school programming, including the 300 Pod, cafeteria, kitchen, and serving area. Staff are currently developing a scope of work to ensure these areas are cleaned, evaluated, and returned to safe, fully operational conditions in support of future use.

We are grateful for the relationship built over these years and appreciate the professionalism and partnership shown by Immanuel Bible Church. We wish them continued success in their next chapter.
