FROM THE OFFICE OF LEARNING AND TEACHING

TO: Board of Education

FROM: Andy Barrett

RE: GHS Course Enrollment by Gender

DATE: 4/9/18

The Illinois School Code requires that each school board review high school course enrollment disaggregated by student gender at least once every four years. Our administrative team reviews this data on an ongoing basis, evaluates it for trends, and, if necessary, considers options for addressing any disproportionate inequity that may be a result of discrimination. While a review of the data does indicate some disproportionate enrollment by gender in select courses, our analysis suggests that this difference can largely be attributed to student interest. We will continue to evaluate this data going forward, and have attached the most recent course enrollment data disaggregated by student gender for your review.
