Federal Programs Director  
March 6, 2018

### **Idaho Positive Behavior Network**

Our work with the Idaho Positive Behavior Network continues this month. Building coaches will be attending School-Wide Information System or SWIS training this week in Eugene, Oregon. Each of the coaches will become certified in the web based system and be trained to work with co-workers on data collection, summarizing, and utilizing the data to drive decision making. Those attending the training are Teri Uria, Randee Garrett, Margo Phariss, and myself.

### **ACCESS 2.0 Testing**

The testing window has concluded. We will receive testing results May 18, 2018.
