4 Axis Communications 01970-001

Ideal for school corridors and hallways, AXIS P3715-PLVE lets you easily monitor two different areas with a single camera, around the clock and even in challenging lighting. You can count on excellent overviews and detailed coverage thanks to the brilliant design of this cost-effective solution.

5 Axis Communications M3115-LVE

AXIS M3115-LVE is an affordable, flat-faced dome that offers HDTV 1080p video and an excellent wide-angle view. This compact and discreet camera includes IR illumination for sharp video even in challenging light or complete darkness. Its ideal for surveillance in a wide range of locations, including hotels, restaurants, retail stores, and offices.

Smooth, sharp video

AXIS M3115-LVE offers excellent HDTV 1080p resolution at up to 30 fps to deliver clear, sharp video of moving objects. It features Axis Forensic WDR which preserves forensic detail when there are both light and dark areas in a scene. And Axis Lightfinder technology for increased light sensitivity and clear colors in low light. Its perfect for monitoring inside and outside of various premises where theres often poor light conditions.

Light up the night

This flat-faced dome is designed to suppress light reflections and deliver excellent image quality and usability

1 Axis Communications T8516

AXIS T8516 PoE+ Network Switch is an easy to install 16-port managed Gigabit switch - a perfect complement to Axis recorders to further simplify setup and installation of surveillance systems. AXIS T8516 comes with an integrated DHCP server for automatic assignment of IP addresses and discovery of connected Axis devices. The intuitive administrator interface offers a graphic topology for easy overview of all devices in the system with information about connected devices and status. The high PoE power output allows for connection of up to 16 PoE cameras.

9 **Axis Communications P3717-PLE**

AXIS P3717-PLE lets you easily cover four different areas with a single camera, around the clock and even in challenging lighting. Youll be able to count on both excellent overviews and detailed coverage thanks to the brilliant design of this cost-effective solution. AXIS P3717-PLE is perfect for large indoor and outdoor areas like stores, shopping malls, warehouses, parking lots and lobbies. Its also ideal at hallway, aisle and road intersections and at the outer corners of buildings.

3 **Axis Communications P3807-PVE**

Large outdoor spaces. Expansive halls. Oversized warehouses. With four sensors built into a single camera, and seamless stitching of all four images, AXIS P3807-PVE delivers brilliant overviews of extensive areas with excellent image usability and no blind spots.

Seamless image quality

The single smooth and cohesive video stream from four sensors is what really sets AXIS P3807-PVE apart. Plus, Forensic WDR delivers clarity when there are both dark and light areas in the scene. Axis Zipstream technology reduces storage and bandwidth needs while capturing important details in full image quality. And Lightfinder ensures sharp, color images in low light.

Get the wide view

AXIS P3807-PVE is perfect when you need to see the whole picture. You get 180degree horizontal coverage, and 90degree vertical coverage. Or you can choose to use AXIS T94V01C Dual Camera Mount to mount two AXIS P3807-PVE Network Cameras back-to-back

* Price Includes Accessories

1 Axis Communications S1148 24 TB

AXIS Camera Station S1148 Recorder is an out-of-the-box, ready-to-use recording solution designed to deliver reliable high-definition surveillance. This recorder comes as a rack server, with the possibility to add extra hard disks and a storage capacity of up to 144 TB.

This easy-to-install solution includes AXIS Camera Station licenses for mid-sized installations, so you have everything you need to help ensure every customer installation is trouble-free.

From manufacturing facilities to schools and retail, AXIS Camera Station S1148 Recorder meets the requirements of a wide variety of businesses and industries. Its ideal whenever reliable and secure surveillance is required.

1 Axis Communications T8524 PoE+ Network Switch

AXIS T8524 PoE+ Network Switch is an easy to install 24-port managed Gigabit switch - a perfect complement to Axis recorders to further simplify setup and installation of surveillance systems. AXIS T8524 comes with an integrated DHCP server for automatic assignment of IP addresses and discovery of connected Axis devices. The intuitive administrator interface offers a graphic topology for easy overview of all devices in the system with information about connected devices and status. The high PoE power output allows for connection of up to 24 PoE cameras.
