- **Been Around since 1955**
- **Based out of Itasca, local presence**
- **Several partners for a variety of different solutions**
- **Partner support that offers support for machines**

# Canon

# IX-9 MAILING SYSTEM

Picture is not actual layout.  
Design includes upgrades.

## 2. Weighing Platform

Instant weight-to-rate conversion for Letters, Large Envelopes or Packages, including Dimensional Weight.

## 3. USPS® Based IMI Meter

Prints the Intelligent Mail® Indicia (IMI) in compliance with the latest USPS® requirements.

## 4. Control Panel

Large color touchscreen with intuitive menus. Shortcut keys for one-touch access to frequently used rates, services and jobs.

## 8. Production Mail Feeder

Process mixed size and weight mail pieces in the same stack.

## 7. Precision Envelope Sealer

Dual-pump, jet-spray sealing system secures the contents of your envelopes. High-capacity reservoir.

## 5. Power Conveyor Stacker

Increases output capacity. Maximizes throughput by extending run times between unloading.

# DIFFERENCES

- **PROCESSING SPEEDS**
- **DIFFERENCES IN UPDATED VERSION**
- **SERVICE EXPECTATION**

# PROPOSED SOLUTION
