

CROCKETT COUNTY CONSOLIDATED COMMON SCHOOL DISTRICT
BOARD OF EDUCATION

Subject: **Consider Options for Facility / Bond Planning**

Related Pages: (None)

Presented by:
Chris duBois
Superintendent

ACTION

BACKGROUND INFORMATION

I am seeking the Board's preference for approaches to Professional Services related to desired facilities program planning. The earlier I have awareness of your preferences, the sooner we can benefit from such services, even in planning discussions.

Professional Services may not be procured competitively. If we have sufficient knowledge or experience with Professionals we trust, we can certainly discuss with them the possibility of serving us again, or the Board may direct a Request for Qualifications process be planned.

Specifically, I will be seeking your direction on construction methods for desired projects as well as preferences regarding Financial Services related to Bond Planning.

We can have access to much of this assistance at no cost or obligation to the district until a project is authorized.

ADMINISTRATIVE RECOMMENDATION

If the Board is agreeable, I would like to consider leveraging existing relationships. We have completed both bond planning and facilities design activities recently enough that we should be able to determine your comfort with previous engagements or desires for new directions.

APPROVAL/DISAPPROVAL
