

AGENDA ITEM

Subject: Review and consider adding, revising or deleting (LOCAL) policies that were developed from the Policy Review Session in February.

Rationale: On February 12th and 13th of this year, Kathy London from TASB Policy Service led the HISD Board and staff members in a review of our policies. Much discussion was held about current campus and district practices as well as practices that are outdated or no longer occurring. The recommendations from our discussions are attached in the summary along with copies of the annotated policies. Please note that policy BE (LOCAL) requires a choice. Draft #2 is similar to our current policy but as we have not had items added during the past 3 years or more, there is not one over the other that reflects our practices.

Recommendation: To add, revise, and delete (LOCAL) policies as indicated on the summary of recommendations resulting from the Policy Review Session that was conducted on February 12th & 13th.
