Re: High School Principal Report June, 2018

Homedale Board of Trustees,

The end of the school year was a success. All 86 of our graduates made it and walked across the stage at graduation. It was a full month of May with lots of activities. We are thankful for all the efforts made by all stakeholders in making this past school year a success. We have teachers already preparing for next school year and doing work to make sure that we are meeting the needs of our students in order for them to see the success we all desire. We are also working with our IPBN teams district wide in creating a school/district culture that will help encourage positive behaviors and ultimately more successful students.
