

CORRESPONDENCE STUDY PROGRAM

The Board recognizes that some students may benefit from an educational program other than the regular school program. The Superintendent or designee may approve participation in a correspondence study program when a student's needs can be best met outside of regular classroom instruction and an educational plan for such study is agreed upon and approved by the student's parent/guardian. If the student desires to enroll in a correspondence program offered by the state or another school district in Alaska, a cooperative arrangement will be entered into as required by law.
