

Glendale & Big Sky Colony Schools

September Board Report

Submitted by: Rebecca Rappold, Principal

The first weeks of school have been busy getting materials ready, final supply lists ordered, and planning for yearlong instruction under the BPS Scenario 3 Plan. At the Big Sky Colony, Ms. Light is assigned to grades 1-3 and Ms. WhiteGrass-Trombley has grades 4-8. Ms. Show is teaching 1-8 at the Glendale Colony with assistance from Ms. Christoferson. I have had the opportunity to meet with staff the past two Wednesdays at both schools. Last week we collaboratively met at the Glendale School to develop plans for student Aimsweb assessment, sub plans, and Scenario 3 planning.

During September, teachers will be trained to conduct Aimsweb assessing. Students in grades 1-8 will take the Aimsweb benchmarking assessment during the week of September 20-23. A regular extended day schedule has been created and most meetings will be conducted virtually with professional development topics to support ELA, writing, mathematics, assessment, and instruction to support the multi-grade teacher. Both schools will use their Title IA funds in September to purchase additional classroom literature.
