For Patients

The Cloud 9 app brings mental healthcare access and control directly into the patient's hand.

**Convenient. Supportive.
Empowering.**

RESULTS

- Improve mental health, happiness and well-being
- Avoid or quickly quell crisis situations
- Monitor personal mental states, behaviors and symptoms
- Reduce personal cost of mental health care, including travel, time off work, child care, etc.
- Stay closely connected to care team at all times

For Providers

With the Cloud 9 Telehealth Platform for Mental Healthcare and Cloud 9 app, providers are able to

stay securely connected to their patients without significantly altering their regular workflow.

Efficient. Actionable. Effective.

RESULTS

- Reduce administrative burden
- Improve patient attendance and compliance
- Improve treatment efficacy and outcomes
- Collaborate with multiple care team members
- Identify patients in need quickly

For First Responders

The Cloud 9 app virtually connects first responders and mental health providers with real-time data and communications.

Easy. Safe. Responsive.

RESULTS

- Reduce ER visits, jail time and court costs for people with mental illness
- Improve the safety of citizens and officers

- Reduce the likelihood for use of force
- Increase community trust
- Save costs on first responder hours managing and transporting citizens in mental health crisis situations
