**Principal's General Narrative:**

Looking back at our school year, I can confidently say that our faculty and staff delivered instruction that was aligned with the new state assessments (STAAR). We created an urgency to modify our curriculum so that our instruction was more rigorous and ensured our students were thinking critically. We benchmarked and analyzed data that would drive our curriculum. We put in place good academic systems that ensured our students' success. Our STAAR results came back as expected. We know our raw scores but standards have not been set by the state. We will have to wait and see how we performed compared to the state.

We look forward to another successful school year.

Respectfully,

*Alma Gutierrez*
